16. REMARKS 5) The contractor shall provide an Annual Facility Survey and Inspection report detailing facility and system deficiencies in the structural, electrical, mechanical, and environmental areas. The Survey and Inspection report shall, at a minimum, include the status of current year projects, proposed projects, conditions of facilities (interiors and exteriors), slabs and foundations, airfields, roads, grounds, drainage systems, sanitary sewage system, water supply, electrical system, POL system, other utility systems, power generation equipment, fire protection/ detection equipment, and physical security aides. The Survey/Inspection report shall include photographs of the above items at each site in sufficient detail to document all deficient conditions as well as the overall condition of the sites. These photos will be organized into a single file for viewing along with individual photo files in a supporting subfolder on the submitted CD. 5) The report will be organized by site with an introductory overview of issues/ concerns from a CE/real property viewpoint and also a spreadsheet of current status of all power generation equipment. This status will include hours operated since last overhaul for planning purposes. 5) The report will also include the contractor's listing of real property and RPIE as an appendix so that there will a single document that provides a single overview of contractor maintained facilities. 9) Distribution authorized to U.S. Government agencies only (administrative or operational data, 29 May 02). Other requests for this document shall be referred to ACC CONS 14) CDRL shall be provide to the Government on a CD along with a paper copy either comb or spiral binding. 16. REMARKS 5, 10-14) Electromagnetic Interference (EMI) Reporting Air Force Spectrum Interference Resolution (AFSIR). A FOL site affected by an EMI incident shall begin an investigation to identify the source. The contractor shall submit an EMI report of the incident within 24 hours once the source is identified. If a source cannot identified the contractor shall immediately notify USSOUTHCOM/SCJ63 at DSN 567-1661, Commercial (305) 437-1661. After normal duty hours, if it pertains to SATCOM, call the Joint Operations Intelligence Center (JOIC), DSN 567-4900, Commercial (305) 437-4900. If a source cannot be identified, the CDRL shall include detail information of all effort to locate the source. 5) EMI From Frequency Assignment Problems. When the EMI clearly resulted from problems in assigning a frequency, the contractor shall, within 24 hours, inform the USSOUTHCOM Frequency Management Office and CO of the problem by an EMI report. Notify USSOUTHCOM/SCJ63 at DSN 567-1661, Commercial (305) 437-1661. After normal duty hours, if it pertains to SATCOM, call the Joint Operations Intelligence Center (JOIC), DSN 567-4900, Commercial (305) 437-4900. USSOUTHCOM/SCJ63 will dictate if a report is required. If required, submit with 24 hours. 5) EMI From Hostile Sources. When the contractor suspects that EMI is coming from a hostile source, USSOUTHCOM shall be contacted within 5 minutes. The contractor shall, within 24 hours, submit an EMI report, USSOUTHCOM will assess the validity of the incident and act as liaison to the intelligence community. Use the identical format to report hostile and non-hostile interference. 14) USSOUTHCOM/SCJ32/SCJ63: The contractor shall contact the Frequency Management Office to receive instructions and procedures for its receipt of electronic or hard copy of Initial and Follow-on EMI reports.
